1	Expense Tracker	Aman Garg, Mukul Goel ,Sagar Mittal , Mr. Shekhar Singh	: This Expense Tracker is a web application that facilitates the users to keep track and manage their personal as well as business expenses. Using paper is not easy to manage. It is common to delete files accidentally or misplace files. This expense tracker provides a complete digital solution to this problem. Excel sheets do very little to help in tracking expenses. Furthermore, they don't have the advanced functionality of preparing graphical visuals automatically. Not only will it save the time of the people but also it will assure error-free calculations. The user just has to enter the income and expenditures and everything else will be performed by the system. Keywords: Expense Tracker, budget, planning, savings, graphical visualization of expenditure	● No report generation ● NOocomparison of prices ● No notifications
2	Intelligent Online Budget Tracker	Girish Bekaroo and Sameer Sunhaloo School of Business Informatics and Software Engineering, University of Technology, Mauritius	We present an intelligent online budget tracker (GeniusIOBT.com) to efficiently manage house-hold a budget. Our system will help to plan and track household-budget related issues where mem- bers of the system can securely access it anytime from anywhere via the Internet. The Intelligent Online Budget Tracker not only keeps track of the budget but also provides means to analyze data via charts and graphs as well as intelligently predicting future budgets and issues like bankruptcy. Keywords: intelligent online budget tracker, household budget, data analysis	● Less secure ● No chart preparation ● No notification ●
